## **DETAILED ACTION**

### ***Continued Examination Under 37 CFR 1.114***

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on July 8, 2004 has been entered.

### ***Terminal Disclaimer***

The terminal disclaimer filed on December 10, 2004 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of U.S. Patent No. 6,828,681 has been reviewed and is accepted. The terminal disclaimer has been recorded.

### ***Allowable Subject Matter***

Claims 29-36, 39, 41-46 and 48-52 are allowed.

The following is an examiner's statement of reasons for allowance: none of the prior art of record appears to teach, fairly suggest or render obvious the invention of claims 29, 42, 43, 51 and 52. In particular:

Applicant's declaration has shown sufficient evidence that the neither JP '785 nor JP '728 discloses of the electrochemical cell as defined in each of these independent claims. A more detailed reasoning can be found in Applicant's Declaration and Remarks both filed December 10, 2004.
